- iv) **OTHER BIOCHEMICAL TESTS IN CLINICAL CONTEXT.**

Dr. Rajesh Chawla

(Consultant Radiologist)

(Reg. No 10949)

DECLARATION OF DOCTORS / PERSON CONDUCTING ULTRASONOGRAPHY / IMAGE SCANNING

Dr. Rajesh Chawla name of the person conducting ultrasonography / image scanning)
I declare that while conducting ultrasonography / image scanning on **Mrs. Nazish** (Name of the pregnant woman), I have neither detected nor disclosed the sex of her foetus to any body in any manner.

Name and signature of the person conducting
ultrasonography / image scanning / Director or
owner of genetic clinic ultrasound clinic / imaging centre

may be noted that due to constantly changing position of fetus & limitations of technique, all congenital anomalies specially small parts, limbs & xillo-facial, cannot be picked up on routine level-I ultrasound. Further tests like level-II studies, 3-D scans, blood investigations or amniocentesis may required for detailed evaluation.) All the anomalies still cannot be detected pon due to positioning of foetus. Scans done for the first time in 3rd trimester/ near Term, cannot predict precise EDD & are also likely to miss certain anomalies due to over-riding of parts. This report does not include 2 D fo of foetal heart. Dating scans are best done at 8-12 wks & anomalies scans are best done between 18 & 24wks. in the absence of any risk tors. Estimated fetal weights are correct to within 2 standard deviations in only 90% of the cases, with rest outside values reported.
r. Rajesh Chawla declare, that while conducting ultrasonography scanning, I have neither detected, nor disclosed the sex of her fetus to anybody in anybody in any nature / the fetal gender has not been disclosed to me.

☒ **" BETI BACHAO, DESH BADAU "** ☒

Radiological investigations have their own limitation. The above report is an opinion and not the final Diagnosis.
This option is to be co-related with clinical profile, investigation. In case of any discrepancy a review may be asked.
Timing : 8.00 a.m. to 10.00 p.m., Sunday 10.00 a.m. to 12.00 Noon
