Reg. No. 2007/08/3268

I declare that during the examination, I have neither detected nor disclosed the sex of the fetus to anybody in any manner.
Not all anomalies, can be detected on sonography depending upon various factors like gest age, fetal position, amount of liquor, maternal abdominal wall thickness, patient co-operation etc.

I declare that by undergoing ultrasonography / Image scanning etc. I don't want to know sex of my fetus.
माझी करण्यात येणारी सोनोग्राफी ही गर्भलिंग निदानासाठी नाही याची मला जाणीव आहे. यासाठी मी स्वेच्छेने संमती देत आहे.
