DECLARATION

Dr. Nishant  
Department of Radiodiagnosis, All India Institute of Medical Sciences, Bhopal (M.P.)  
I have neither detected nor disclosed sex of the fetus to her or anybody else. I must be aware that detailed fetal anatomy may not always be visible due to technical difficulties related to fetal position, amniotic fluid volume, fetal movements, maternal abdominal wall thickness and tissue echogenicity. Therefore all fetal anomalies may not necessarily be detected at this examination.
