

BHAKTI SONOGRAPHY CLINIC

Dedicated Ultrasound Clinic Since 2006

Dr. Yogesh S. Chaudhary

MD, DNB, Radiodiagnosis

(KEM, Mumbai)

Reg. No. : MMC - 00/02/0965

Ground Floor, Balaji A Building, Opp. Elpro City Square Mall, Link Road, Chinchwadgaon, Pune - 411033.
Timing : 10:00 am to 5:00 pm Only By Appointment (Sunday Closed)

PATIENT	:	Mrs. Snehal Kadam	DATE	:	02 Nov 2023
REF. BY	:	Dr. Rupanjal Thube	AGE/GENDER	:	26 YEARS / F

Study : USG OBST (NT scan) -

LMP : 25/07/2023

GA WITH LMP : 14 WEEKS 2 DAYS

EDD : 30/04/2024

Report ;

A single intra uterine fetus is seen.

Fetal cardiac activity present. FHR : 149 bpm

Placenta is posterior.

Amniotic fluid look adequate for the gestational age.

No obvious congenital anomaly is noted at the present gestational age.

[NT : 0.7 mm. Nasal bone seen. Pre- maxillary triangle is intact. Three vessel cord noted]

Stomach bubble seen. Bowel echogenicity is within normal limits. limbs , spine , brain , appears normal at present.
Ductus venous shows normal flow.

Internal OS is closed. Length of the cervix is 3.5 cms. [TVS]

Foetal gestational parameters are :-

Parameters	CMS	WEEKS	DAYS
BPD	2.5	14	3
HC	9.3	14	2
AC	7.0	13	4
FL	1.1	13	2
CRL	7.4	13	4

IMPRESSION : Fetal growth corresponds with the expected gestational age of 13 to 14 weeks.

NO fetal anomaly is seen at this stage.

Mean uterine artery PI is - 1 (6 % tile) - Normal.

DR. YOGESH CHAUDHARY.

M.D.DNB.RAD.

I dr yogesh chaudhary declare that,sex of the foetus is neither detected,nor disclosed to anybody in any manner.

[Note : All foetal anomalies cannot be ruled out on USG. Few anomalies may be noticed only in third trimester.

NT scan is a part of screening for few chromosomal anomalies like Downs syndrome (Trisomy 21) , other trisomies

like 13 & 18) , cardiac & other fetal abnormalities. This is not a definitive diagnostic test for chromosomal anomalies.

Dedicated combined screening (NT scan + biochemical markers OR NIPT) and other definitive tests are recommended in high risk group as per the universal guidelines].

For appointment please call between 10 am to 5 pm on Mob.: 7744035218, 9850565811
