NAME: MRS. SINDHUTAI WAGHMARE
REF BY: DR. SUDHIR WAGHMARE SIR

57YR / F DATE: 22/01/2024

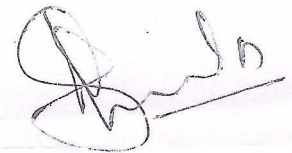

USG BOTH BREAST

- ♦ There is e/o a well define cystic lesion of size 23 x 22 mm noted in glandular plane , retro alveolar area in left breast . It shows peripherally placed tiny mural nodules and debris . No vascularity noted on Doppler study .
- ♦ The glandular & fibrofatty tissue in right breast appears normal.
- ♦ No e/o dilatation of ducts noted.
- ♦ No abnormal vascularity noted.
- ♦ Intercostal muscles appear normal.
- ♦ No obvious collection noted.
- ♦ No e/o regional lymphadenopathy seen.

Opinion: Cystic lesion in left breast .

Suggested : FNAC .

THANKS FOR REFERRAL.
