DECLARATION OF THE DOCTOR CONDUCTING ULTRASONOGRAPHY:-

I,Dr.Anuradha Dafal while doing ultrasound on BABLI have neither detected nor declared sex of the fetus to anybody in any manner.

Note:All anomalies cannot be ruled out by this scan since assessment of fetal anomalies depend on various factors.USG markers for screening of chromosomal anomaly may not always be evident and as such their absence may not totally rule out presence of fetal chromosomal anomaly.This report is meant only to assist a medical practitioner in the use of limitations of ultrasound.This report does not include 2 D echo of fetal heart.

This Report is for medical purpose only ,not for medico legal purpose.
