DR. APARNA
RADIOLOGIST

I Dr. APARNA declare that while conducting USG on THRISHA 19 Y/F.

I have neither detected nor disclosed the sex of the fetus to anybody in any manner

Note: all anomalies cannot be ruled out by ultra sound, since assessment of fetal anomalies depends on fetal position, liquor

Note : The results of the ultrasound examination are based on the best possible information available at the time of the examination. Please consult a clinical doctor for further evaluation. This report is not for confirmation for the diagnosis and only represents part of professional opinion in some of the various possibilities and number of variables known & unknown does exist.
