*** Advice: Follow up scan at 19-21 weeks for target scan.**

I, NIMESH GOYAL declare that while conducting ultrasonography/ image scanning on Mrs. NEHA I have neither detected nor disclose the sex of her fetus to anybody in any manner.

Note: Not all the chromosomal / congenital anomalies are seen in prenatal ultrasound, all measurement including the fetal weight, are subjected to statistical variation. Report to be interpreted by registered medical practitioner in light of other laboratory parameters. Dedicated fetal ECHO not done at the time of study.
