Main Road, Kamptee

PATIENT'S NAME – MRS. LAXMI YADAV  
REFERRED BY – DR. MANJU RATHI MAM

AGE/SEX – 42Y/FEMALE  
DATE – 03/07/2024

**USG PELVIS**

**FINDINGS –**

**Uterus –**

- Uterus measures  $7.8 \times 4.0 \times 4.5$  cm (SIxAPxML), appears normal in size. Myometrium shows mildly altered texture. No lesion is seen in myometrium.
- Endometrial thickness measures 16.0 mm, appears thickened. Small cystic spaces are seen in endometrium. Vascularity is seen in endometrium.
- 2 – 3 nabothian cysts are seen in cervix, largest measuring  $1.7 \times 1.3$  cm.

**Right ovary –**

- Well defined simple cyst of size  $3.8 \times 3.3$  cm is noted in right ovary. No solid component is seen in the cyst. No features of torsion of cyst noted.
- Rest of ovarian parenchyma is normal.

**Left ovary –**

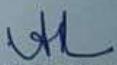

- Left ovary measures  $1.7 \times 1.0$  cm, appears small in size.
- No lesion is seen in parenchyma.

Minimal free fluid is noted in pelvis.

**IMPRESSION –**

- Endometrial thickness measures 16.0 mm, appears thickened. Small cystic spaces are seen in endometrium.
- Simple cyst in right ovary of size  $3.8 \times 3.3$  cm.
- Small nabothian cysts in cervix.

Advice – Follow up USG for well evaluation of endometrium.
