REG.NO.10148

While conducting ultrasonography on mrs, ANNU VISHWAKARMA I have neither detected nor disclosed that sex of her fetus to anybody in any manner.

DR ROOPVARSHA JAIN
CONSULTANT RADIOLOGIST REG.NO.10148

Please note the limitations of Obstetric Ultrasound Scanning

- Scanning of the foetal anatomy can be affected by various factor like maternal abdominal wall thickness & tissue echogenicity, scars, fetal lie, amniotic fluid volume, fetal gestation and other factors.
- There fore all the anomalies may not be necessarily be detected.
- A " Normal" scan of the fetus does not mean that the fetus will be normal at birth as the fetus is developing all the time.
- This report does not include 2D foetal echo.
