INFORMATION NO-17 FOR (FETAL WELL BEING)

The first time B mode sonography of gravid uterus was performed.
There is a single, live, intrauterine gestation.

Fetal Cardiac Pulsations

123 /MIN

LMP

15-05/2024 Gestational Age 19 WKS 2 D EDD 19/02/2025

Presentation

VARIABLE

PARAMETERS:

BPD

40 mm compatible with 18 wks 2 days

HC

149 mm compatible with 18 wks 0 days

Abdominal Circumference

118 mm compatible with 17 wks 4 days

Femur

25 mm compatible with 17 wks 4 days

Estimated Fetal Weight

206 gms. (by two formulas)

Pleura

RIGHT POSTERIOR WITH GRADE I MATURITY DISTANCE FROM

OS IS 2.1 CM NO LOW LYING PLACENTA

Amniotic Fluid

NORMAL AFI MEASURES 12

EVALUATION FOR FETAL ANOMALIES

INCREASED NT MEASURES 4 MM

NAVAL CORD PRESENT

HEAD: Fully developed in the mid line. Both lateral ventricles are normal in size. Posterior foramen is normal. No abnormality is noted in the cerebellum. No identifiable intracranial lesion seen.

SPINE: 11 mm spine visualized in longitudinal and transverse axis. Vertebrae and spinal canal are normal.

THORAX: Heart is in the mid position. Normal cardiac size. Four chamber view shows mildly enlarged right heart chambers with s/o intracardiac echogenic focus in left ventricle. No evidence of pleural or pericardial effusion. No space occupying lesion in the thorax.

ABDOMEN: Abdominal situs appears normal. Stomach, bladder, both fetal kidneys appear normal. No evidence of foetal masses. Abdominal wall intact.

UMBILICAL CORD:

Appears normal, all three vessels visualized.

OS CLOSED CERVICAL LENGTH MEASURES 3.2 CM

IMPRESSION

* SINGLE, LIVE, INTRAUTERINE GESTATION OF 19 WKS 2 DAYS (+/- 2 wks).

* PLACENTA LOW LYING

* THE CORRECTED EDD AS PER PREVIOUS EDD IS 17/02/2025 (+/- 2 WKS).

I, Dr. Shweta Anandhara declare that while conducting the sonography of KIRTI, I have not observed the signs of fetus in jeopardy in any manner.

Thanks for reference

Dr. Shweta Anandhara

ADV. HITAL ECHO

ULTRASOUND DIAGNOSIS IS BASED ON APPEARANCE OF GRADE SCALE SHADES, AND IT IS ALSO AFFECTED BY TECHNICAL VARIATIONS. SINCE IT IS SUGGESTED TO CORRELATE ULTRASOUND OBSERVATIONS WITH CLINICAL AND OTHER INVESTIGATIVE FINDINGS TO REACH THE FINAL DIAGNOSIS. NO LEGAL LIABILITY IS ACCEPTED. NOT FOR MEDICO LEGAL PURPOSE.
