

Lab Address:- # Plot No. 564 , 1st floor , Buddhanagar , Near Sai Baba Temple Peerzadiguda Boduppal Hyderabad, Telangana.
ICMR Reg .No. SAPALAPVLHT (Covid -19)

Name	Mr. ANKUR VISHWAKARMA	
Sample ID	A1686964	
Age/Gender	35 Years/Male	Reg. No : 0662410280223
Referred by	Dr. SELF	SPP Code : SPL-PU-185
Referring Customer	NBD DIAGNOSTIC CENTER	Collected On : 21-Oct-2024 09:16 PM
Primary Sample	Whole Blood	Received On : 22-Oct-2024 01:06 PM
Sample Tested In	Serum	Reported On : 22-Oct-2024 10:08 PM
Client Address	:	Report Status : Final Report

IMMUNOLOGY & SEROLOGY

Test Name	Results	Units	Biological Reference Interval
-----------	---------	-------	-------------------------------

Treponema Pallidum Haemagglutination (TPHA) <small>(Method: Haemagglutination)</small>	Non Reactive	Titer	Non Reactive
--	--------------	-------	--------------

Comments :-

Syphilis is a chronic infection that progresses through distinct stages namely Primary, Secondary, Tertiary & Quarternary producing diverse clinical symptoms. The infection is caused by the Spirochaete Treponema acquired usually by sexual contact although the disease may be transmitted through blood transfusion and intra-uterine infection. Positive results indicate both past or present infections. False positive results are seen in patients suffering from Leprosy, Infectious mononucleosis and Connective tissue disorders. This test does not distinguish between Syphilis and other pathogenic treponemal infections. All positive results should be confirmed with FTA-ABS (Fluorescent Treponemal Antibodies) test.
