Disclaimer: -

Please note that USG study has certain limitations. Isomelimesterfetal anomalies may Not get diagnosed due to nature of anomaly. Gestational age, foetal positioning and limitations of machine thence absence of mention of foetal anomaly in study does not always rule out its possibility. (Foetal echo is not included in this scan).

Declaration: - I declare that while conducting Ultrasonography/ Image, Scanning on patient, I have neither detected nor disclosed the sex of her fetus to anybody in any manner.
