ULTRASOUND OF ABDOMEN AND PELVIS

Scan done on GE LOGIQ P6 Ultrasound system at Paras diagnostic Rajnandgaon.
The Real time, B mode, gray scale sonography was performed.

LIVER : The liver is normal in size and shape. it is uniformly isoechoic, has normally distributed and normal size biliary and portal radicles and is without solid or cystic mass lesion or calcification.

PORTAL VEIN : Portal vein is normal in size, hepatopetal flow.

GALL BLADDER : It is physiologically distended and lumen is echofree. no evidence of calculus or mass lesion is noted.

COMMON BILE DUCT : The common bile duct is normal in caliber.

PANCREAS : The pancreas is normal in size, shape, contours and echotexture. No evidence of solid or cystic mass lesion is noted.

SPLEEN : The spleen is normal in size and shape. Its echotexture is homogeneous. No evidence of focal lesion is noted.

KIDNEYS : The kidneys are normal in size and have smooth renal margins. cortical echotexture is normal with maintained corticomedullary differentiation. No evidence of calculus or hydronephrosis.

The right kidney measures 10.0 cms in length.

The left kidney measures 10.6 cms in length.

No retroperitoneal lymphadenopathy is seen.

No free fluid is seen in the peritoneal cavity.

The bowel loops are unremarkable and show normal peristalsis.

Reg No : 416913
Name : RUKHMANI VERMA
Referred By : Dr. SHREE KRISHNA HOSHITAL

Sex/Age : F/40 Y

Date 04/01/2025

URINARY BLADDER : The urinary bladder is well distended. It shows uniformly thin walls and sharp mucosa.

PELVIS :

The uterus is anteverted and appears bulky in size.

Uterus measures - 7.8 x 5.9 x 4.5 cm vol - 112cc.

Myometrium and endometrium appear to be normal

Endometrium thickness - 13mm.

Well defined anechoic cystic lesion of size 3.9x3.1 cm seen in right ovary -suggestive of simple cyst. No septation, solid component or vascularity seen in the cystic lesion.

Well defined anechoic tubular cystic lesion of 3.5x2.5cm seen in left adnexa adjacent to left ovary - suggestive of left hydrosalpinx.

The ovaries are normal in size, shape and show normal echotexture.

Right ovary size - 4.2 x 3.6 cms.

Left ovary size - 3.5 x 2.0 cms.

No adnexal mass is seen.

No free fluid is noted in the cul-de-sac.

OPINION :

- Bulky uterus.
- Right ovarian simple cyst.
- Left hydrosalpinx.

Advice - Clinical correlation.

Thanks for reference,
With regards
