

**AND POST GRADUATE INSTITUTE
DEPARTMENT OF RADIODIAGNOSIS
OBSTETRIC SONOGRAPHY REPORT**

(H)

Patient Name : Mrs./Ms. Ameetha Khan Age/Sex 24/F Date 26/12/25
MRD. No.: OPD Reg. No. 261209 IPD Reg. No. : MLC No. :
Unit :

- 1) ☒ Singal Live intrauterine foetus seen : Vertex / breach presentation at present Scan
- 2) Foetal Cardiac Activity FHR - 160 bpm ☒ Present / Absent
- 3) Foetal Movement ☒ Present / Absent
- 4) Amniotic fluid A ☒ Adequate / Less / Excess
- 5) Placenta ☒ Posterior / Anterior
- 6) Growth Parameters -

- i) Gestational : mm : Wks Days
- ii) C.R.L. H. 90 mm : Wks 5 Days
- iii) B.P.D. : mm : Wks Days
- iv) H.C. : mm : Wks Days
- v) A.C. : mm : Wks Days
- vi) F.L. : mm : Wks Days

7) Foetal Maturity in weeks : 11 Wks 5 Days ;

8) Foetal Weight : Grams

9) LMP : 18/12/24 GA : 11 Wks 5 Days

10) Impression : Single live fetus

EDD. (By USG) : 20/01/25

EDD. (By USG) : 20/01/25

Note : This is not anomaly scan. Not all Congenital anomalies can be ruled out by sonography due to present foetal maturity. foetal position, liquor volume, Abdominal wall thickness, obesity and ultrasound machine resolution. All these factors may affected result of Sonography.

Consent of Patient :

By under signing I, Ms/Mrs. agrees to have ultrasound above matter and absolve the Radiologist of any defects not diagnosed on ultrasound and agrees to the fact that relying solely on sonography report is not sufficient to rule out all congenital malformations.

मी खाली सही करणार कु./सौ. माझे ऊदरस्थित बाळाची सोनोग्राफी तपासणी करून घेणेस संमती देत असून सोनोग्राफी तपासणी करित असतांना बाळामधील न आढळलेले व्यंग व दिलेल्या रिपोर्ट बाबत माझी कोणतीही तक्रार नाही, तसेच बाळामधील व्यंग जाणून घेणेकामी सोनोग्राफी तपासणीवर आयलवून राहणे पुरेशी नाही याचीही कल्पना मला आहे.
