

13 April 2022

PATIENT'S NAME: ALKA AGE/SEX: 30 Y/F
REF: DR. MRS MINOO SHUKLA, MS.
(ABDOMEN AND PELVIS: TVS)

ULTRASONOGRAPHIC OBSERVATIONS

Liver is normal in size (measures 122mm in midclavicular plane) with smooth contour and Homogeneous echotexture. Portal and hepatic vein radicles are normal. Porta hepatis reveals normal course and calibre of Portal vein. No subdiaphragmatic collection seen. Pleural spaces are clear.

Gall bladder is distended with thick walls with an echogenic calculus of 12mm within lumen with posterior shadowing. Cholelithiasis.
Intra and extra hepatic biliary channels are normal. CBD: 4mm.

Pancreas is normal in contour and echopattern.

Spleen is normal in size and shape with homogeneous echotexture.

Both Kidneys are normal in size, shape and corticocentral echopattern.

RK: 93mm. LK: 102mm.

No pelvicalyceal system dilatation seen on either side.

Ureters are undilated.

Urinary bladder is thinwalled with echofree contents.

Aorta and IVC normal.

No evidence of Ascites / free fluid.

No obvious regional lymphnode/bowel mass is seen through available frequency and acoustic window.

Bowel region reveals normal bowel echopattern.

Uterus is bulky, measures 104 mm X 45 mm.

Endometrial echo is thin (8.8mm).

Myometrial echoes are homogeneous.

Cervix is bulky with normal echotexture.

Both adnexae are normal. Both Ovaries are normal in size and echotexture.

POD is free.

IMPRESSION:

Sonographic features reveal Cholelithiasis. Bulky Uterus seen with bulky cervix.

Please correlate clinically.

Thanks for referral.

REF: DR. MRS ANITA P. GURU, MBBS, PGDMCH

ULTRASONOGRAPHIC OBSERVATIONS:

PELVIC SCAN

U.S.G. REVEALS:

TAS and TVS :

- **Urinary bladder** is thinwalled with echofree contents.
- **Uterus** is bulky, measures approx. 90 mm X 50 mm.
- **Endometrial echo** is thin (6 mm).
- **Subendometrial halo** is intact.
- **Myometrial** echoes are homogeneous.
- **Cervix** is normal in size and echotexture.
- **Both adnexae** appear within normal limits.
- **Both Ovaries** are normal in size and echotexture. RO volume: 4.0 cc. LO volume: 4.1 cc.
- **POD** is free.

IMPRESSION:

Sonographic features reveal Bulky Uterus with thin endometrial echo.

Please correlate clinically.

Thanks for referral.
