Clinical correlation.

Thank you for referral.

(Note: - Detail fetal anatomy may not be always visible due to technical difficulties related to fetal position, amniotic fluid volume, fetal movements & abdominal wall thickness. Therefore anomalies may not necessarily be detected on every Ultrasound examination. All measurements including fetal weight are subject to statistical variations.) Reported findings are for interpretation of referring doctor only. If report indicate unexpected abnormality, the same should be reconfirmed by further higher modalities like CT, MRI etc. I, Dr. Lanje sonologist of ARJUNI HOSPITAL or my employees do not take any liability or responsibility for any loss or any damage that may incurred to any person as a result of presuming the meaning or contents of report given to the patient. I declare that while conducting ultrasonography/image scanning, I have neither detected nor disclosed the sex of her foetus to anybody in any manner.

Mrs. SHAHARE PUSHPA VILAS / MRN-250500099
