

## SERUM PROTEIN ELECTROPHORESIS REPORT

|              |                 |                     |            |
|--------------|-----------------|---------------------|------------|
| Patient Name | Mrs. KIRTI DEVI | Sample Process Date | 01/09/2025 |
| Age/Gender   | 58/F            | Sample ID           | B3675538   |

| Index     | Band    | Rel. Area | Protein Conc | Range (g/dl)  |
|-----------|---------|-----------|--------------|---------------|
| 1         | Albumin | 54.19%    | 4.12         | 3.20 ... 5.00 |
| 2         | Alpha 1 | 3.75%     | 0.29         | 0.10 ... 0.40 |
| 3         | Alpha 2 | 8.53%     | 0.65         | 0.60 ... 1.00 |
| 4         | Beta    | 12.45%    | 0.95         | 0.60 ... 1.30 |
| 5         | Gamma   | 21.08%    | 1.60 H       | 0.70 ... 1.50 |
| Total     |         |           | 7.60         |               |
| Ratio A/G |         | 1.18      |              |               |

### COMMENTS:

SPE reads an increase in Gamma-globulins with all other fractions normal. Suggestive of Hypergammaglobulinemia.
