

## SERUM PROTEIN ELECTROPHORESIS REPORT

|              |               |                     |            |
|--------------|---------------|---------------------|------------|
| Patient Name | Mrs. B ANDALU | Sample Process Date | 11/04/2025 |
| Age/Gender   | 54 YRS/Female | Sample ID           | B3804397   |

| Index     | Band    | Rel. Area | Protein Conc | Range (g/dl)  |
|-----------|---------|-----------|--------------|---------------|
| 1         | Albumin | 47.68%    | 3.91         | 3.20 ... 5.00 |
| 2         | Alpha 1 | 4.74%     | 0.39         | 0.10 ... 0.40 |
| 3         | Alpha 2 | 10.64%    | 0.87         | 0.60 ... 1.00 |
| 4         | Beta    | 15.39%    | 1.26         | 0.60 ... 1.30 |
| 5         | Gamma   | 21.55%    | 1.77 H       | 0.70 ... 1.50 |
| Total     |         |           | 8.20         |               |
| Ratio A/G |         | 0.91      |              |               |

### COMMENTS:

SPE reads an increase in Gamma-globulins with all other fractions normal. Suggestive of Hypergammaglobulinemia.
