

## SERUM PROTEIN ELECTROPHORESIS REPORT

|              |                    |                     |           |
|--------------|--------------------|---------------------|-----------|
| Patient Name | Mrs. RASHMI PATHAK | Sample Process Date | 11/8/2025 |
| Age/Gender   | 65 YRS/Female      | Sample ID           | A1736179  |

| Index     | Band    | Rel. Area | Protein Conc | Range (g/dl)  |
|-----------|---------|-----------|--------------|---------------|
| 1         | Albumin | 50.76%    | 3.81         | 3.20 ... 5.00 |
| 2         | Alpha 1 | 2.76%     | 0.21         | 0.10 ... 0.40 |
| 3         | Alpha 2 | 10.40%    | 0.78         | 0.60 ... 1.00 |
| 4         | Beta    | 14.68%    | 1.10         | 0.60 ... 1.30 |
| 5         | Gamma   | 21.40%    | 1.61 H       | 0.70 ... 1.50 |
| Total     |         |           | 7.50         |               |
| Ratio A/G |         | 1.03      |              |               |

**COMMENTS:**  
 SPE reads an increase in Gamma-globulins with all other fractions normal. Suggestive of Hypergammaglobulinemia.
