Radiologist

Dr. Jaishree
MBBS DMRD
Reg. no.BCMR 31019

Note: This study does not guarantee detection of all congenital anomalies. Detection of fetal anomalies depends on the gest.age fetal position, adequacy of liquor & other variables at the time of scanning. An anomaly can also be missed due to changing fetal position, p.in relation to fetal limbs & heart. Hence all congenital anomalies may not be detected on a single scan. This study does not include fetal echo. Hence cardiac anomaly cannot be entirely excluded.

Dr. Jaishree
